RE: Volkswagen 2.0 L diesel defeat device

Dear Sir/Madam.

This is a Freedom of Information Act request. I request all information regarding the emissions testing and investigation of Volkswagen 2.0 L diesel defeat device. When and where did the testing occur? What procedures and equipment were used to test the VW vehicles? What were the results? What were the opinions of EPA medical doctors regarding the excessive level of harmful emission gases? What were legal opinions about this problem? I request copies of supporting documentation.

This information will be shared with medical doctors, legal professionals, researchers, scientists, veterans and people affected with breathing problems, and those interested in the protection of the environment. This information, therefore, will significantly increase the public's understanding of how the U.S. Government operates. I request a waiver of all fees.

I request a written response to this letter.
